16 Formerly there was a Civil Surgeon for the Bangalore District in the same way as for every other District and he was a Member of the District Fund Board Bangalore District. This office was abolished a few years ago. Subsequently the Resident-Surgeon Victoria Hospital used to do duty for some time for the District Civil Surgeon, in addition of course to his own duties. Under the new Regulation and Rules thereunder the President proposed the appointment of the "District Medical Officer or other Senior Officer whom the Senior Surgeon may depute". This was not sufficiently definite

and hence the substitution for it of "The Officer in medical charge of the District". If the District is without a Medical Officer, the rule has to be altered. If the Senior Surgeon, Personal Asst or other Officer practically in medical charge of the District, he must be regarded as a Member of the Board & no change of Rules is necessary. Calculation involves occasional changes which in the circumstances of the case, are highly undesirable. To the Senior Surgeon Personal Asst being declared ex officio District Medical Officer, I can see no objection.

21 The question was discussed afterdeath above between the Dewan Saheb & myself. My personal assistant could not be Asst Med Officer, Bangalore District, & do his work efficiently. The present arrangement is temporary — to arrange some scheme to & to maintain the district Board dispensaries. My proposal was that instead of having a junior man M.D. as the medical officer at the Victoria Hospital, we should appoint here a senior man who would be designated assistant physician & Hospital Superintendent M.O. B.D. I. The hospital work would be mainly — two physicians in charge of 198 beds in the Civil hospital & District Surgeon 2nd District, the Surgeon at the Residency. I was, so far as the hospital was concerned, subordinate to the S.M.O. but [illegible]
